In the specification

Please replace paragraph [0024] on page 5 of the specification as originally filed with the following paragraph:

FIG. 1 shows a method 100, according to a preferred embodiment of the invention. Like other methods of embodiments of the invention, the method 100 may be implemented as a computer-readable medium on an article of manufacture. The medium may be a recordable data storage medium, such as a magnetic, semiconductor, and/or optical medium, a removable or a fixed medium, and/or a volatile or a non-volatile medium. ~~The medium may also be a modulated carrier signal.~~ The method 100 may be performed by a processor of a node of a multi-node system that is to execute a section of code that relates to memory of the node.
